REPAIR INFORMATION:

CARSOFT INFORMATION SYSTEM

CIS VERSION MB3

For Mercedes Vehicles

This Carsoft CIS solution offers all kind of **Technical Repair Assistance**, in addition to our Windows based Carsoft Diagnostic System for Mercedes vehicles.

After reading a fault code in the memory of the car, it is not always easy to localize the exact root of the problem. Therefore, Carsoft has decided to release a System, which offers their customers all the information they need to repair the faults in the most professional way.

Once the "CIS " program is installed , it will permanently run in the background of the basic Carsoft Diagnostic System . The moment a fault in the car, appears on the screen and you would like to get more technical info, you just need to click on the **help button** and the "CIS" program will be activated .

By activation, the " CIS " program "**automatically**" selects the information of the fault in question and will then offer you **ALL the technical assistance** you need in order to solve the problem .

The CIS Version MB3 for Mercedes vehicles Includes:

- **Component Locations** with help of **Assisting Pictures**
- Detailed **Component Explanations** and **Pictures of the Components**
- Complete **Wiring Diagrams** with **Active Legend and Explanations**
- “Step by Step” **Repair Assistance** , to **All Stored faults**, in order to fix the problem in the fastest and most professional way

And it covers the following Systems:
